1. Summary of Research Proposal

Summarize the objectives and research plan. Provide a clear statement on how the proposed project is innovative and translational. Character count limitation: 2000

2. Research Project Team

Clearly describe the various roles and responsibilities of all team members listed, and your team's capacity to complete this two-year project. State the amount of protected research time for the PI, if applicable. Character count limitation: 2000

3. Lay Abstract

Provide a lay (non-technical) summary of your project in simple and clear language suitable for lay audiences/press release. The summary must include a detailed statement of how your research will have an impact on patient care, provide savings for the health system, or create a medical device and/or commercial opportunities. Character count limitation: 2000

Note: if your proposal is funded, this abstract will appear on the VCHRI website and various VCH and VGH & UBC Hospital publications. Please do not include anything that might compromise future protection of intellectual property or patenting.

4. Project Budget

Applications will be considered for a maximum of $100,000 for two-year projects.
Important Note: Refer to Guidelines and Guidance Notes for budget criteria.

Item	Amount	In-kind contributions
Personnel		
Materials and Supplies		
Communications and publications		
Other (specify)		
Total value of in-kind contributions		
Total requested (maximum $100,000)		

5. Budget Justification

A) Provide details and justification of request funds listed in the budget on the previous page. Character count limitation: 2000.

B) Provide details on the budget requested in relation to your overall program of research and funding history (currently or pending). Character count limitation: 1800.
